

Apprentice Electrician

Role Overview

As an Electrical apprentice at Your Housing Group, you will have the opportunity to work alongside our highly skilled members of the Repairs and Maintenance team in becoming a qualified tradesperson. Combining technical and practical skills whilst obtaining a formal qualification will give you a solid foundation for your future career.

RESPONSIBILITIES

- Work to the apprenticeship programme, adapting to changes in schedule and requirements where necessary.
- Undertake associated duties or tasks that complement the skills and experience to become a fully operational tradesperson.
- Liaise with other staff as necessary to ensure the timely completion of works within agreed operational targets.
- Plan and organise work in an economical and effective manner, making the best use of your available time.
- Understand and apply the practices and procedures to plan, prepare to maintain electrotechnical systems and equipment.
- Prepare the work site ready for work and select and use materials and tools appropriate to the post and duties undertaken.
- Apply and use mathematical and scientific techniques, formulae, and calculations that underpin an electrician’s work.
- Use a range of tools, materials, equipment, and components, including prefabricated, relevant to performing electrical work in industrial, commercial, and residential environments.
- Design, plan, set up, and install electrical and related electronic systems including terminating and connecting cables in electrical wiring systems, installations, and equipment in commercial, industrial, and residential installations.
- Inspect and test new and existing electrical Installations in commercial and residential environments using test equipment.
- Ensure compliance with all minimum standards of work, customer care requirements and key performance measures.
- Install and maintain electrical and electronic equipment and components, including traditional and novel technologies such as connections for EV charge points, battery storage, solar and thermal panels, heating, and cooling systems.
- Record work including the completion and maintenance of work documentation, test results and appropriate certifications, including the use of relevant digital learning platforms, business communication and collaborative applications.
- Positively communicate and build relationships with other members of the repairs service, key stakeholders, and customers.
- Ensure compliance with all minimum standards of work, customer care requirements and key performance measures.
- Support the delivery of efficient, value for money services and aim to exceed the expectations of clients and customers.
- To attend briefings, meetings, training sessions as necessary.
