

Enterprise Architect

Role Overview

Works with Senior ICT and Business Stakeholders across YHG to translate the Business Strategy into Technical Delivery, responding to and proactively identifying opportunities for improvement and cost efficiencies.

Ensure the use of best practice and consider emerging technologies and approaches, identifying influences or risks and play a key role in the successful delivery of YHG's Strategic Corporate objectives.

RESPONSIBILITIES

- Identify priorities for change to enable delivery at pace, consistent with the delivery of YHG's Corporate Business Objectives
- Lead and influence the delivery of cost-efficient, rationalised and simplified technology services and solutions
- Support the design, development and maintenance of the enterprise architecture vision, strategy and roadmaps from a technology, digital and data perspective, aligned to Corporate Business Objectives, including "as is", "to be" and transitional states.
- Understand the organisation's ecosystem and its interdependencies, including reference architectures.
- Take a strategic view across all architectural domains, portfolios and programmes.

Our values

Honest & Reliable
We are authentic, open and dependable; and we do what we say we'll do.

Caring
We show kindness and consideration to our customers and each other.

Respectful & Fair
We listen to people, and strive for equity and inclusivity in all that we do.

- Guide senior Business and ICT Stakeholders to make appropriate business, technology and data decisions by recommending reuse, sustainability and scalability, to achieve value for money and reduce risk, advising on options, costs versus benefits, system impacts, and technology priorities.
- Establish and maintain architectural principals, policies and standards. Implement and enforce a mechanism for ensuring relevant documentation has been created or updated to maintain an up-to-date view of YHGs architectural estate.
- Help support the innovation and Research & Development needs for the Group.
- Carry out horizon scanning across industry, identifying emerging trends and their potential impact and opportunity for the organisation. Where applicable sponsoring and supporting the delivery of Pilot or Proof of Concept through the project management process, including (potential) benefits realisation.
- Co-ordinate planned application lifecycle management to minimise availability and security risks to YHG technology
- Manage the ICT Technical Design Authority process, facilitating TDA Working and Steering Groups, ensuring adherence and consistency with agreed Architectural, Security, Data and Digital design principals, applying the appropriate governance and oversight for instances of non-compliance with agreed principals.
- Undertake additional duties appropriate to the role and/or grade.

STRENGTHS

- ✓ Strong commercial perspective.
- ✓ Ability to communicate between the technical and the non-technical.
- ✓ Ability to produce visual representation and mapping of YHGs ICT eco system
- ✓ Excellent IT skills with proficiency in Microsoft Office
- ✓ Ability to work autonomously with minimal supervision
- ✓ Excellent relationship building and mediation skills.

ESSENTIAL REQUIREMENTS

- ✓ Demonstratable strong understanding of enterprise architecture and its subdomains.
- ✓ Proven experience of how technical governance works with wider governance (such as budget).
- ✓ Ability to direct the evaluation of strategies and policies to ensure business requirements are being met.
- ✓ Demonstrable good understanding of business issues, events and activities and their short to long term impact.
- ✓ Bachelor's degree in computer science, information systems, system analysis, or a related field, or equivalent work experience.

BENEFICIAL TO THE ROLE

- ✓ Experience managing 3rd parties.
- ✓ Agile frameworks knowledge.
- ✓ Social Housing experience
- ✓ BCS Enterprise and Solutions Architecture qualification and working towards Azure Architect & Visio standardisation
