

Building Surveyor

Role Overview

Deliver cost effective and efficient local based property management services, including the management, design, construction, maintenance, repair and refurbishment of Your Housing Group's domestic and commercial properties.

RESPONSIBILITIES

- Take responsibility for the delivery and management of an efficient and effective building surveying service. This includes undertaking building surveys of vacant and occupied properties to identify defects, produce specifications and schedules of work.
- Support the Senior Surveyor with the effective management of contractors and suppliers, ensuring that repair & maintenance items are undertaken to the correct specification, the right quality on budget and within the required timescales.
- Providing advice and recommendations to support the management of contractors and suppliers, including resolving contract disputes, cost and value management, planning applications, boundary disputes, regulatory compliance and completed works.
- Ensure buildings and works conform to the relevant regulations and technical standards.
- Effectively manage risk, identify, and report any issues/breaches relation to health & safety and to actively promote a safe working environment for all.
- Work proactively to minimise complaints in the first instance. Ensure complaints are responded to & resolved within agreed timescales, working closely with contractors to stop complaints escalating. Feed into lessons learned to help shape and improve the future service delivery to customers based upon their feedback.
- Handling insurance and disrepair claims with expert witness statements and preparation of specifications for remedial works
